

## PROFILE

---

I am a student in my second year of the engineering cycle at ESIREM Dijon. I have a great capacity of organization and initiative as well as a will to improve my skills. I am rather comfortable speaking, which is a plus when communicating with customers or my colleagues. I also have a good knowledge in many programming languages. I am very motivated to continue learning and improving my skills.

## SKILLS AND CERTIFICATION

---

- CCNA1 Certification in Telecommunications Networking from Cisco and CCNA2 in progress
- Comfortable with programming in Python
- Knowledge in C++, HTML, CSS, Java and JavaScript

## PROJECT AND VOLUNTEER WORK

---

Host of the ESICAST show, which aims at inviting students and teachers of the school to know more about their lives before, during and after school.

Takes part in the association Gala ESIREM which takes care of the organization of the end of year Gala rewarding the last graduates and organizing a show mixing dance, song and skits.

Part of the student union of ESIREM which aims to develop, animate and organize the associative life of ESIREM through the organization of trips, parties but also cultural events and the integration of new students.
